Yes

If you have answered 'No' please set out an alternative housing figure and provide reasoning to support your answer.

Yes

No

If you have answered 'Yes' please set out what you see as the further issues.

The use of existing brown field sites and land already bought but not developed.

Shaftesbury is a unique town of great historical and environmental significance. It would be overwhelmed by much more development, its character, views and green spaces threatened. It would lose what we most value, and the process is irreversible.

Some of the areas may not be suitable for building: steep slopes, geology, spring lines and flooding potential will all need to be considered, as well as space to build appropriate infrastructure.

14. What are the additional infrastructure requirements that are likely to result from potential future development at Shaftesbury?

Please set out what you see as the additional infrastructure requirements.

Water supply and waste disposal: education facilities for all ages; health and social services; amenities such as multi-functional spaces; sports facilities; green spaces; safe passage to and from the town for pedestrians and cyclists.

All planned new facilities should be investigated an impact assessment produced before implementation.

Please set out what you see as the additional infrastructure requirements.

Yes

No

If you have answered 'No' please set out your alternative approach and information/reasoning behind this.

Affordable Housing

22. Do you consider that the existing reference to nine dwellings in Policy 9 of LPP1 should be removed from the policy to allow larger schemes to come forward where there is evidence of local need in excess of that which could be met by the provision of nine dwellings?

Yes

No

23. Do you consider that the existing policy approach, which seeks to prevent exception sites coming forward adjacent to the four main towns within the District, should be amended?

Yes

No

24. Do you consider that the Council should continue with its existing policy approach, which allows for a small number of market homes on rural exception sites?

Yes

No

Self-Build and Custom-Build Housing

25. Do you consider that the Council should facilitate the provision of self-build housing by any, some, or all of the following options?

Yes

No

Comments

There are many questions which you do not ask about the following essential considerations: conservation of the Shaftesbury's unique character and long heritage; provision of safe pedestrian routes; communal amenities to promote well-being and a cohesive community; conservation of open spaces and associated wildlife.

Developers should be required to fulfil their obligations to provide community facilities and roads, and to develop land they already own rather than be given permission to develop new areas.

I hope that there will be many more opportunities for local residents to be informed about plans and have a meaningful say

in the future of our home. We want it to be sensitively developed not just for our benefit, but for all new residents.

If you have any comments about the Issues and Options Document or the Sustainability Appraisal please set them out in the box below. If your comments are in relation to a specific question or chapter of the Issues and Options Document then please state which question or chapter your comments relate to.

Sustainability seems to be a low priority for the plan. This must change.

Continue on a separate sheet if necessary

Do you wish to be contacted about future consultations relating to the Local Plan Review?
