

Responses to Issues TR1 to TR8: 'Transport'

Christchurch and East Dorset Core Strategy consultation: Issues + Options March 2008

In March 2008 Christchurch and East Dorset councils consulted on the joint Core Strategy Issues and Options document. The questions asked under the above theme were:

Key Issue TR1

How can we reduce dependency on the private car and encourage the use of more sustainable forms of transport?

The options offered in the consultation were:

- A. New development should be located close to jobs, shops, schools and other facilities and where there are good bus services in order to reduce the need to travel
- B. Promote higher density development in and around town centres minimising the need to travel and promoting more alternatives to the car
- C. Where required, new development should be accompanied by enhanced public transport services and links to the cycle network even if this requires public subsidy.
- D. There should be bus lanes and bus priority at selected junctions so that buses are faster and more reliable
- E. Car sharing should be encouraged by favouring cars carrying more than one person – for example by allowing them to use bus lanes or providing special lanes in roads for them
- F. Local facilities should be retained close to local neighbourhoods which can be accessed easily by a range of sustainable transport modes other than the car
- G. Demand management measures such as congestion charging and higher charges for parking should be used to reduce traffic
- H. People should be discouraged from using cars by providing less parking
- I. There should be more working from home and workplaces mixed in with housing areas so people can work close to where they live
- J. Improvements and extensions should be made to public and community transport services and cycle networks to reduce dependency upon the car
- K. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	125	11	14	n/a
B	109	27	7	n/a
C	137	5	11	n/a
D	83	35	27	n/a
E	69	49	21	n/a
F	128	4	12	n/a
G	28	94	18	n/a
H	19	108	10	n/a
I	97	15	24	n/a
J	133	5	7	n/a
K				37

Key Issue TR2

Should a prime transport corridor be extended to the following settlements?

The options offered in the consultation were:

- A. Verwood
- B. Three Legged Cross
- C. St Leonards and St Ives
- D. West Moors
- E. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	40	8	25	n/a
B	32	16	21	n/a
C	25	14	27	n/a
D	27	12	26	n/a
E				13

Key Issue TR3

What can we do to increase the potential of rail as a means of transport in the area?

The options offered in the consultation were:

- A. Enhance facilities and infrastructure at railway stations
- B. Enhance railway station interchange facilities for bus users, cyclists and pedestrians
- C. Identify sites for new rail stations (e.g. linked to urban extension proposals)
- D. Examine potential routes for new light or heavy rail services
- E. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	81	4	16	n/a
B	92	0	10	n/a
C	61	18	19	n/a
D	67	16	18	n/a
E				16

Key Issue TR4

Should approval of major new trip generating development be conditional on any of the following?

The options offered in the consultation were:

- A. Proximity to existing public transport or prior approval of suitable new transport infrastructure
- B. Industrial development should not be allowed on outlying sites like Ferndown or the Airport unless it provides for easier access for those who do not have cars.
- C. Commercial developments should contribute to new transport infrastructure
- D. Housing developments should contribute to new transport infrastructure
- E. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	76	21	10	n/a
B	67	30	16	n/a
C	92	11	13	n/a
D	82	14	17	n/a
E				19

Key Issue TR5

Which major highway improvements are required?

The options offered in the consultation were:

- A. A31 dualling across the conurbation
- B. A31 to Poole corridor improvements
- C. A Sixpenny Handley Bypass (Back Lane Improvements)
- D. A West Moors bypass
- E. An A350 Sturminster Marshall, Spetisbury and Charlton Marshall Bypass
- F. A link road from the A338 spur road to the Airport
- G. A Christchurch Bypass
- H. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	84	11	13	n/a
B	76	8	14	n/a
C	6	12	54	n/a
D	14	25	42	n/a
E	25	14	44	n/a
F	83	8	12	n/a
G	57	24	22	n/a
H				27

Key Issue TR6

What approach should we adopt for car parking provision?

The options offered in the consultation were:

- A. Maintain existing levels of town centre parking provision unless it can be provided in other locations
- B. Provide new public parking in town centre locations in conjunction with any new development
- C. Manage parking more efficiently by reducing the pressure on our core car parks
- D. Reduce long stay parking and season ticket (non shoppers) in the core shoppers car parks, relocating these to outer car parks
- E. Restrict on street parking in the town centre shopping core to very short stay
- F. Review the use of car parking places to ensure the best use of space
- G. Take advantage of any redevelopment proposals to rationalise town centre car parking and reduce traffic intrusion
- H. In the longer term, consider opportunities for increasing the public parking stock
- I. Introduce park and ride schemes
- J. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	80	14	9	n/a
B	73	24	10	n/a
C	54	20	14	n/a
D	59	25	14	n/a
E	67	18	12	n/a
F	86	3	9	n/a
G	72	13	10	n/a
H	59	14	22	n/a
I	55	30	9	n/a
J				13

Key Issue TR7

What type of proposals can be developed to improve safety on our roads and our local environment

The options offered in the consultation were:

- A. Identify areas for comprehensive traffic management
- B. Identify villages or hamlets for speed reduction schemes
- C. Encourage the provision of 'home zones' in residential areas
- D. Provide more segregated footpaths and cycleways
- E. There should be tighter controls on traffic around schools, open spaces and key services and facilities to reduce impact and speed of vehicles and enhance pedestrian environment
- F. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	76	17	15	n/a
B	85	7	11	n/a
C	73	9	18	n/a
D	84	7	12	n/a
E	86	3	11	n/a
F				13

General comments:	Placing new development close to facilities (meaning existing facilitiesd) and good (meaning existing) bus services is becoming a sustainability mantra. In practise this actually means continuing to do what we have long been doing - progressively tacking on development round the outside of existing centres and representing it as new thought sustainability. Sometimes it may be, but sometimes it may not - cerainly not when biological sustainability is sacrificed to achieve it.It maybe in danger of being promoted as a consideration which must override all others. It is important to first find a location/locations which can accept development without significant erosion of important landscape, amenity and wildlife designations as should initially be identified in NE4

Issue:	TR1	Contact ID:	XED1432	Surname:	CHITTENDEN	Unique Response Ref:	CSIO-03438
Option:	E	Organisation:	Environment TAG (East Dorset)				
Response:							
General comments:	E would only be acceptable if it did not lead to further road construction or widening. Small car parks to allow people to meet to share transport for longer journeys should be encouraged. The damaging environmental effects of the "school run" must be addressed.

Response:
General comments: High car parking charges in town centres are likely to lead to loss of trade for small shops in favour of free car parks at major supermarkets. East Dorset charges are higher than those for New Forest towns.

Response:							
General comments:	Key Strategy TR1. All of these options seem to be very urban orientated and do not take into account the fact that realistic public transport is not economically viable in rural areas. There should, I recommend, be a policy to provide adequate and affordable parking at points where public transport is accessible from rural areas.						

Issue:	TR1	Contact ID:	XED2372	Surname:	BURGESS	Unique	
Option:	GENERAL	Organisation:		Response Ref:		CSIO-09784	
Response:	The only way public transport can run properly is under one roof. This is a service to all not a grab what you can and sod the public. Free transport for the 60+ is a fine example of why it should be under one roof						
General comments:							

Issue: TR1 Contact ID: XED2307 Surname: BURR (OBE) Unique Response Ref: CSIO-03368
Option: GENERAL Organisation:

Response: To encourage the use of public transport big improvements in the information available is required & publicity about the service. Living in Highcliffe I have written to Wilts & Dorset Bus Company about the paucity of information. Some bus stops do not even have the number of the service on them and there are no timetables displayed. The time table obtained from the library etc. is complicated & for people new to the area & not familiar with the roads very difficult to understand. Realising that Wilts & Dorset cover a wide geographical area, which would make detailed information in a booklet both expensive & cumbersome I suggested that local Resident Associations could with the Bus Company produce detailed information of the service covered by the Residents's Association. The response from the Bus Company was that they were in a programme of improving information for all their services. I now here the service is being removed so there will not be any bus service available! The response from the Resident's Association from my letter in July 2007 is that someone will contact me. After two further attempts I have had no response. Unfortunately I had the impression that the officers did not use public transport & therefore were not interested.

Obviously a bus service that is not used has to be withdrawn but if there is no accessible public transport service then the elderly & infirm cannot participate in any activities outside their home & the use of cars will increase. Discrimination exists between senior citizens who can utilise their bus pass & those who cannot. This is particularly upsetting for those who purposely purchased a property on a bus route & now find all bus services removed. Getting people out of cars is very difficult but the rise in fuel price may assist & now is a good time to give publicity to & improve information about public transport services.

Option: GENERAL Organisation: For Persimmon & Banner Homes (represented by Terence O'Rourke)

Response:

General comments: New development should be located close to jobs, shops, schools and other facilities and where there are already good bus services in order to reduce the need to travel by private car.

New development should be accompanied by enhanced public transport services, links to the cycle and footway network and the use of "Smarter Choice" initiatives, including the promotion of more sustainable modes of public transport, walking, cycling, car sharing and more sensible uses of the car.

Paragraph 3.60 of the SEDLTP states that providing a reasonable alternative to the private car is an essential element of a congestion strategy. It notes that it is the bus network that is likely to provide the main alternative for most local journeys.

In addition, paragraph 3.46 of the SEDLTP indicates that there is increasing evidence that cycling and walking can contribute to resolving congestion. A study by the Transport 2000 Trust identifies examples where traffic congestion has been reduced by nearly a tenth as a result of travel awareness programmes, where more than half the miles saved are the result of switching from car to walking.

An urban extension on land along the southern edge of West Parley has significant potential to reduce dependency on the private car by virtue of its position on existing good bus routes and proximity to existing services, including proximity to local employment, shopping areas and leisure facilities, as well as a strategic employment area. In addition, development facilitates potential to improve cycle facilities and public transport facilities where economies of scale offer the ability to increase public transport usage. In addition, the potential provision of a school on site will help reduce peak hour traffic significantly, given the large percentage of peak hour traffic related to education trips.

Option: GENERAL **Organisation:** _____

Response: we need an integrated transport system.
This is of course a central government issue.
It needs a lot of money but there is no shortcut

General comments: _____

Issue: TR1 **Contact ID:** XED2370 **Surname:** WILLIAMS **Unique Response Ref:** CSIO-09770

Option: GENERAL **Organisation:** _____

Response: A park & ride scheme or several small ones as traffic comes in from all directions

General comments: _____

Issue: TR1 **Contact ID:** XED2378 **Surname:** WILSON **Unique Response Ref:** CSIO-09836

Option: GENERAL **Organisation:** _____

Response: Christchurch High Street - The taxi rank outside the old Town Hall should be relocated across the road near Marks & Spencer (facing the roundabout).
The congestion at the bus stop must frustrate bus drivers

Option:	K	Organisation:	Owners of land south west of Three Legged Cross (represented by Terence O'Rourke)				
Response:	New development should be located close to jobs, shops, schools and other facilities and where there are good bus services in order to reduce the need to travel. In addition, higher density development should be promoted in and around town centres and new development should be accompanied by enhanced public transport services and links to the cycle network.						
General comments:							

Issue:	TR1	Contact ID:	XED2261	Surname:	MULLINER	Unique Response Ref:	CSIO-19028
Option:	K	Organisation:	Terence O'Rourke (representing Bloor Homes)				
Response:							
General comments:	New development should be located close to jobs, shops, schools, and other facilities and where there are good bus services in order to reduce the need to travel . In addition, higher density development should be promoted in and around town centres and new development should be accompanied by enhanced public transport services and links to the cycle network. A preliminary transport assessment in respect of the land to the north of Walford Bridge at Wimborne indicates the significant potential at this site for reducing dependency on the private car and for promoting more sustainable forms of transport.						

Issue: TR1 Contact ID: XED1866 Surname: NEWMAN Unique Response Ref: CSIO-33811
Option: K Organisation: Response:
General comments: Not try to widen roads, make life more appealing for motorists. Also abandon any ambition for a bypass

Issue: TR1 Contact ID: XED0018 Surname: NOTTAGE Unique Response Ref: CSIO-12301
Option: K Organisation: Christchurch Borough Council Response: public transport needed
General comments:

Issue: TR1 Contact ID: XED2088 Surname: PACKHAM Unique Response Ref: CSIO-23110
Option: K Organisation: White Young Green Response:
General comments: A range of transport measures and land use allocations are required to address these issues. Development should be located on transport corridors which are well served by public transport and which can be accessed by sustainable transport measures. The relationship with other uses is also an important consideration such that journey distances are kept to a minimum. Accordingly and in response to Issue TR1 the relationship of transport to land use is an important consideration in achieving sustainable development.
Therefore we agree with options A, B, C, D, E and F and consider that the suggested location for the urban extensions be tested against these criteria along with the potential development at the East of Wimborne.

Issue: TR1 Contact ID: XED1498 Surname: PARKE Unique Response Ref: CSIO-09443
Option: K Organisation: Ken Parke Planning Consultants Response: A package of measures should be put in place essentially making it more attractive to use public transport or less attractive to travel by own car
General comments:

Issue:	TR2	Contact ID:	XED2325	Surname:	MILLER	Unique Response Ref:	CSIO-07539
Option:	E	Organisation:	Owners of land south west of Three Legged Cross (represented by Terence O'Rourke)				
Response:	Yes. There is a significant population mass in these settlements and significant opportunities to develop new employment and community facilities to improve the overall sustainability of the settlement by offering potential for residents to reduce the need to travel. Consequently, a prime transport corridor should be extended to serve these areas.						
General comments:

General comments:	Yes, there is significant population mass in these settlements and significant opportunities to develop new employment and community facilities to improve the overall sustainability of the settlement by offering potential for residents to reduce the need to travel. Consequently, a prime transport corridor should be extended to serve these areas.						

Issue: TR2 **Contact ID:** XED1432 **Surname:** CHITTENDEN **Unique Response Ref:** CSIO-03445

Option: GENERAL **Organisation:** Environment TAG (East Dorset)

Response: No further prime transport corridors should be created that will impact on our heathlands (see Bern Convention Rec. 67 on the Dorset Heaths). Heavy goods vehicles should be directed to use existing prime transport corridors. Reduction of speed limits on residential roads may also encourage HGVs to use these prime transport corridors.

General comments:

Issue: TR2 **Contact ID:** XED0902 **Surname:** HASKINS **Unique Response Ref:** CSIO-15279

Option: GENERAL **Organisation:**

Response:

General comments: It is not clear what a prime transport corridor is. If it is a new road, the answer is no. If it is a bus route, the answer is yes. Since the matter is unclear, response to this particular question is invalid.

Issue: TR2 **Contact ID:** XED2442 **Surname:** HELLIER **Unique Response Ref:** CSIO-18135

Option: GENERAL **Organisation:** Highways Agency

Response:

General comments: The prime transport corridor should be extended where possible, although the focus for expansion will need to be assessed in the context of the Transport Study findings.

General comments: Not applicable to East Dorset

Issue: TR3 **Contact ID:** XED2442 **Surname:** HELLIER **Unique Response Ref:** CSIO-18136
Option: GENERAL **Organisation:** Highways Agency

Response:

General comments: The Agency would suggest a combined approach (Options A-D) for encouraging the use of rail in the area. In particular, the Agency is supportive of Option B which would seek to enhance rail interchange with other sustainable modes (public transport, walking and cycling).

Response: Nature conservation and transport constraints indicate that the Airport site is unsuitable for major new development. Adequate public transport (run either by local bus companies or on-site employers) is essential.

Response: All new developments should contribute to sustainable local infrastructure provision ie additional public/community transport, cycleways but not new roads. Urban extensions (other than Cuthbury) will add to our unsustainable commuting/travel patterns.

Response:								
General comments:	By allowing for an extension to the east of the Ferndown Industrial Estate the settlement strategy of the draft RSS will be satisfied in that development will be located adjacent to an SSCT with the range of accessible facilities and services already available. The site is in a position to be able to provide a sustainably located development, it is easily accessed by alternatives to the private car, including cycling and walking, such links could be enhanced,							

Issue:	TR4	Contact ID:	XED1314	Surname:	PALMER	Unique		
Option:	E	Organisation:	Bournemouth & West Hampshire Water Plc (represented by Goadsby)				Response Ref:	CSIO-24177
Response:								
General comments:	Land at Marsh Lane adjoining the SSCT is sustainably located in order to take advantage of existing public transport infrastructure including buses and trains. The site being adjacent to the SSCT has excellent access to a broad range of services and facilities that are easily accessed by alternatives to the private car including cycling and walking.							

Issue:	TR4	Contact ID:	XED1514	Surname:	PALMER	Unique		
Option:	E	Organisation:	Libra Homes (represented by Goadsby)				Response Ref:	CSIO-24245
Response:								
General comments:	By allowing for an urban extension at Holmwood Park, South Ferndown the settlement strategy of the draft RSS will be satisfied in that development will be located adjacent to an SSCT with the range of accessible facilities and services already available. The site is in a unique position to be able to provide a sustainably located development and also contribute a significant improvement to the local highway network. It would be possible to resolve existing capacity problems at nearby junctions and, through this course of action, the site would be a significant influence on public transport integration in the area at a strategic level. The site being adjacent to the SSCT of Ferndown with its broad range of services and facilities is easily accessed by alternatives to the private car, including bus, cycling and walking,

Issue:	TR4	Contact ID:	XED0902	Surname:	HASKINS	Unique Response Ref:	CSIO-15284
Option:	GENERAL	Organisation:					
Response:							
General comments:	<p>A-D In all this section it would appear that transport infrastructure means new roads. Generally no developments should be allowed which increase the demand for new roads - it is against the principles of sustainability. Certainly developments could contribute to the provision of better public transport - and even more importantly to the provision of truly local facilities to reduce the need to travel other than by foot or cycle in the first place</p> <p>B The airport is a highly constrained site from a nature conservation and transport viewpoint and is not a sustainable development site at all</p> <p>C & H Commercial and housing developments should contribute to improvements and extension to public and community transport services and cycle networks (cf TR1 J) not new transport infrastructure, presumably meaning roads.</p>						

Issue: TR4 Contact ID: XED2442 Surname: HELLIER Unique Response Ref: CSIO-18137
Option: GENERAL Organisation: Highways Agency

Response:

General comments: The Agency notes the advice within the Core Strategy document which acknowledges that major trip generating uses should be located in proximity to appropriate transport infrastructure to ensure that new development does not contribute to generating unsustainable commuting I travel patterns.
The Agency welcomes Option A which proposes that major new trip generating development should be in close proximity to existing public transport or where there has been prior approval of suitable new transport infrastructure. With regard to option B, the Agency has concern over industrial development at locations such as Ferndown where access is predominantly by private car, with heavy reliance on the SRN for access. With regard to Options C and D, the Agency highlights the requirement for any adverse impact on the SRN created by developments to be fully mitigated through non-Agency funding. This could include both the promotion of non-car options and/or infrastructure improvements to the SRN.

Option: GENERAL Organisation: Ramblers Association (East Dorset Group)

Response:

General comments:

Issue: TR4 Contact ID: XED2405 Surname: MOLNAR Unique Response Ref: CSIO-17741
Option: GENERAL Organisation: For Persimmon & Banner Homes (represented by Terence O'Rourke)

Response:

General comments: Approval of major new trip generating capacity should be conditional on the site's proximity to existing public transport. Providing new housing areas close to proposed new employment areas will help to reduce trip generation through the ability to provide strong alternatives to the private car through enhanced public transport with relatively short journey times, and through cycle route provision. The potential relationship between an urban extension on the southern edge of West Parley and the proposed employment area at the Airport is pertinent in this respect. Housing developments can also contribute to new transport infrastructure to enable the provision of new bus routes and cycle routes, for example, and this can be in conjunction with other developments that would also utilise and benefit from the infrastructure.

Issue: TR5	Contact ID: XED1432	Surname: CHITTENDEN	Unique Response Ref: CSIO-03455
Option: A	Organisation: Environment TAG (East Dorset)		
Response:	<p>Proposals for a new or improved A31 system have significant environmental constraints. The Stapehill community is already fragmented by the Canford Bottom roundabout.</p> <p>As detailed in the DWT evidence to the East Dorset Local Plan (Deposit), there are SAC, Ramsar, SSSI sites each side of the A31 near Ameysford and, as indicated by the Ramsar notification, impact on the wetland habitat and species such as Great Crested Newt. Drainage schemes associated with the roadworks would affect the sensitive chalk aquifer of winterbourne streams and seasonal ponds.</p> <p>Commenting on proposals for the A31-Poole link road, in his report on the Poole Local Plan, the Inspector recognised that "it is unlikely that a road scheme would meet the tests for the internationally protected habitat and species which would be affected by a road."</p>

Response: The upgrading of the A350 is contrary to findings of GOSW who recommend the use of the A37 as the Poole to Cardiff route. Upgrading the A350 has major nature conservation implications. Revised Policy TRANS 7E in the RSS EiP report requires proposals for Bristol/Bath to the South Coast to "Reduce the impact of traffic on the built and natural environment".

Option:	F	Organisation:	Environment TAG (East Dorset)				
Response:	F and G also have damaging implications for nature conservation. A new link road from the A338 to the airport would need to cross the Moors River and other important habitats causing disturbance and severance of key wildlife areas. There would be implications for protected species such as otter, water vole, bats, reptiles and birds. The problems caused by habitat fragmentation and by creating further barriers to movement of habitats is discussed under NE6 above.

Issue: TR5 **Contact ID:** XED2442 **Surname:** HELLIER **Unique Response Ref:** CSIO-18138
Option: GENERAL **Organisation:** Highways Agency

Response: []

General comments: There is insufficient evidence available at this time for the Agency to either agree or disagree with the options given. The Agency will aim to provide input based on the findings of both the Transport Study and network modelling (for which the Agency will contribute). However, it should be noted that in preconsultation for the Core Strategy relating to Bournemouth Airport, the Agency commented on the feasibility of an A338 link road to the Airport. Public transport and demand management measures are key priorities for improving access to the airport in the short-medium term. In the longer term a link road is seen as a viable improvement based on the expected growth of the Airport business parks, but Agency support will depend on the results of SRN modelling.

Issue: TR5 Contact ID: XED2442 Surname: HELLIER Unique Response Ref: CSIO-18107
Option: GENERAL Organisation: Highways Agency

Response:

General comments: The Agency needs to be satisfied that any proposed development within both Christchurch and East Dorset takes account of the potential impacts on the Strategic Road Network (SRN). The Agency's specific interest relates to the A31 which passes to the north of Bournemouth. This connects with the non-SRN with access to Poole via the A350 and to Bournemouth (including Bournemouth International Airport) and Christchurch via the A338. The future development of the District of East Dorset and Borough of Christchurch will have significant implications for the operation of the SRN.

Strategic level modelling of the SRN's performance to 2026 has been undertaken by the Agency. This modelling shows that the A31 between Oakley to the west and the A338 junction to the east is currently operating at capacity under existing conditions, leading to delays at peak and other times. The Agency's modelling also shows that the extent of the A31 north of Bournemouth affected by existing operational problems is forecast to increase by 2026, extending westwards to the junction with the A350.

At present the traffic flow on the relevant section of the A31 is highly seasonal, with a significant increase in pressure during the summer months. There are also likely to be additional flows on the SRN in this area leading up to and during the 2012 Olympic Games, with both visitors and event related activities increasing traffic. As such, the Agency is committed to ensuring the performance of this section of the SRN and the LDF process is an important means of doing this. Another key consideration is the relatively high incidence of serious accidents on the eastbound carriageway north-east of Bournemouth; this section is in the worst 15% for the SRN.

On this basis we offer the attached comments on the Issues and Options Paper for the Core Strategy. The Agency needs to be satisfied that the Strategy takes account of the need for greater integration between transport and land use planning with a focus on sustainable transport.

The Agency is concerned that any significant additional development, delivered without the support of the necessary infrastructure improvements and investment in public transport, could increase congestion and have an adverse impact on the SRN. The Agency is particularly concerned that the Issues and Options paper is going out for consultation without being informed by the findings of the South East Dorset Transport Study, although it has been stipulated by the Councils that the findings will be incorporated into the Preferred Options stage. The Agency welcomes the early stage opportunities that have already arisen to contribute to the development of the Core Strategy, including pre-consultation on Bournemouth Airport and our attendance at focus group meetings. The Agency's comments below are consistent with these earlier representations. Where necessary, the Agency will continue to comment on the appropriateness of site specific proposals, which may come forward for consideration during the plan period.

The Agency is keen to ensure that development proposals are brought forward in accordance with the Policy framework provided within Department for Transport Circular 02/2007 'Planning and the Strategic Road Network'. In addition the Agency would be looking to see full utilisation of the South East Dorset Transport Study findings and modelling from the South East Dorset Joint Study Area (JSA) at the earliest possible stage within the LDF process

Response Ref: CSIO-20020

Response:

General comments:

All of the above schemes are likely to run counter to any aims to reduce car-borne transport in favour of public transport.

Dualling of the A31 is likely to be problematic due to the proximity of nature conservation interests to the road, specifically in the vicinity of the Ferndown bypass which passes through Slop Bog and Uddens Heath SSSI, part of the Dorset heaths internationally designated sites as well as immediately adjacent to five SNCI. In addition, the Habitats Regulation Assessment for the draft RSS identifies that there are already air quality problems for the Dorset Heathlands International Sites in relation to emissions from the traffic on the A31

In the case of the A31 to Poole corridor, there is considerable doubt as to what scheme is currently proposed, the most recent alignment would trigger an Appropriate Assessment which we believe would be highly likely to conclude that the road would cause an adverse effect on the integrity of international sites. Furthermore, DWT would be highly concerned at the prospect of creating a dual carriageway through from the M3 to the A35 Bakers Arms roundabout. Such a link would be likely to increase accessibility to Purbeck and thus lead to increased traffic on the A351 and thus further damaging road schemes.

In the case of the West Moors bypass, the proposed route passes through Htchards Copse and Meadows SNCI and close to Holt and West Moors Heaths SSSI, which is part of the Dorset Heathland SPA and Ramsar site, as well as the Dorset Heaths candidate SAC. It also lies close to other international and county wildlife sites at its southern end. The proposed bypass is extremely damaging in nature conservation terms. It will result in the disruption of the very special mosaic of habitats found within the SNCI, a combination of semi-natural woodland, wet scrub, dry and damp meadowland and the Mannington Brook which link to Holt Heath SSSI. The road would result in fragmentation of the habitats and adversely affect the integrity of the unit. The valley supports a wide range of bird species, including a number of protected and notable species. Nightjar, Hen Harrier and Merlin, three of the species on Annex 1 of the EU Birds Directive for which the SPA is recognised, have been shown to feed across the valley utilising the variety of natural habitats outside of the SPA. An appropriate assessment under the Habitat Regulations would be required and would be extremely likely to conclude that the proposed road would adversely affect the integrity of the European site.

In the case of the Sixpenny Handley Bypass, there are features of wildlife interest in the vicinity, specifically an SNCI and a pond. However, DWT believes that with a sympathetic design and implementation, the impact on the SNCI could be marginal. Any plan for this scheme should include wording indicating the presence of the SNCI and pond, and stating that appropriate measures will be taken to protect these features.

In the case of the A350, DWT objects to the strategy of upgrading the A350. The Bristol /Bath to South Coast study (GOSW, 2004) identified the A350 south of the A303, as not being of interregional significance. It identified the route from Poole to Cardiff via the A37 as, though longer in distance and a little longer in time, being roughly equal fuel consumption for HGVs. It recommends that it is this A37 route, rather than the A350, which should be prioritised for any further investment. A thorough reappraisal of the A350 in the light of its local role is needed to choose traffic management solutions appropriate to the status of the road. To construct this scheme prior to this study could encourage inappropriate use of this route and thus increase pressure for road construction at Melbury Abbas. Previous studies have shown that construction of a primary route standard road at Melbury Abbas would be likely to harm internationally protected sites and SNCIs unless a long detour is utilised. Given the lack of regional priority for this route, it is highly unlikely that it would pass the test of "over riding public interest" and "no satisfactory alternatives" required by the Habitats Directive should there be a likely significant effect on the SAC areas. Though the Melbury Abbas scheme is of most concern to the DWT, the bypass is not without environmental impacts - it runs through an area of high Great Crested Newt (European protected species) interest and passes adjacent to two Ancient Woodlands SNCs.

In the case of the link road from the airport to the A338, the corridor currently reserved in the Christchurch Local Plan crosses two SSSIs and two heathland SNCIs. Any route along this general alignment would be likely to have a highly damaging effect on nature conservation interests which would be difficult to mitigate. Firstly due to direct land take from designated sites and secondly because the road would sever heathland habitats lying to the north and south of each other. It is the employment allocation rather than the airport terminal which is served by the most recent link road proposal. A draft Area Action Plan recently prepared for Bournemouth Airport points out that policy is likely to move away from employment uses which are dependent on car borne commuting. This combined with green travel plans and improved public transport links, could reduce the need for the link road and instead increase the need for public transport and other more sustainable transport infrastructure.

In the case of the Christchurch bypass, past studies have shown that any alignment along an "outer" route is likely to be highly environmentally damaging, to conflict fundamentally with European wildlife designations in the Avon Valley and Dorset Heathlands and be completely unacceptable due to its nature conservation impact.

General comments:	<p>A West Moors by-pass will have significant negative effects on biodiversity and is, at best, dubious in meeting legislative requirements on the European sites at Holt Heath. If this option is to be taken forward we shall expect to see a convincing case for its need and beneficial transport effects, including demonstration that additional development on the Ferndown - Verwood corridor is generating unacceptable congestion effects that cannot be removed by other transport options.</p> <p>The significance of the nature conservation issue arising from a new A338 link road to the airport is well known. At this stage we offer no comment pending consideration of the assessment work being undertaken by the planning authorities.</p> <p>We are surprised and concerned to see mention of a Christchurch by-pass as an option. This has been around for several decades and no route has yet been found that is effective and financially viable, and does not involve significant harm to nationally and internationally important nature conservation sites. Unrealistic speculation on this option deflects attention from tackling the amount of vehicle travel, local highway issues etc causing congestion in the Christchurch area.</p>

Option: GENERAL Organisation: Highways Agency

Response:

General comments: The Agency suggests that District wide strategic parking reviews are undertaken to identify existing areas of over or under supply of parking. This should be used to identify where measures can be realistically applied to assist in reducing the use of private cars. As such, Option F (to review use of parking to ensure best use of space) would appear to be a reasonable starting point. The provision of park and ride facilities for town centres can potentially contribute to a reduction in town centre congestion and, importantly for the Agency, ease pressure on the SRN. However, the Agency reserves the right to comment on site-specific measures until there is both evidence from the South East Dorset Transport Study and a clearer understanding of the location and extent of development.

General comments: A park and ride scheme for Bournemouth Airport would enhance its sustainability credentials and support local businesses. The Airport should be the focus for public expenditure to improve accessibility. This would then act as a catalyst for further investment at the airport by local businesses

Issue: TR6 Contact ID: XED0206 Surname: FALCONBRIDGE Unique Response Ref: CSIO-23590
Option: J Organisation: Ferndown Town Council

Response: CAR PARKING SPACES ARE NO LONGER A PLANNING CONCERN SO WE ARE TOLD FOR NEW RESIDENTIAL DEVELOPMENTS. THIS IS A BIG MISTAKE AS THERE IS CURRENTLY NO ALTERNATIVES TO THE CAR, AND UNTIL THIS CHANGES WE SHOULD ENSURE THAT PARKING FOR NEW DEVELOPMENTS IS ADEQUATE FOR THE NEW OWNERS, AS CURRENT POLICY WILL SLOWLY CAUSING DEGRADATION OF EXISTING RESIDENTIAL AREAS.

General comments:

Issue: TR7 Contact ID: XED0250 Surname: Organisation: Ringwood Town Council Unique Response Ref: CSIO-22341

Response: Disagree

General comments: Conceptually fine, practically very difficult given existing urban geometry. Prefer a very focussed risk based approach otherwise money will be wasted and expectations dashed

Issue: TR7 Contact ID: XED2443 Surname: BAKER Organisation: Linden Homes (Southern) Ltd represented by Lennon Planning Unique Response Ref: CSIO-18368

Response:

General comments: Require preparation of green travel plans for significant commercial, leisure or employment uses to introduce measures to increase use of public transport, walking and cycling, and reduce reliance on the car

Issue: TR7 Contact ID: XED0957 Surname: BISSEX Organisation: Unique Response Ref: CSIO-34106

Response:

General comments: more traffic police on road to watch for bad driving eg tailgating

Issue: TR7 Contact ID: XED1130 Surname: DIXON Organisation: Unique Response Ref: CSIO-00118

Response: Discourage the 'school run' and restrict parking near schools.

General comments:

Issue: TR7 Contact ID: XED2327 Surname: DODSON Organisation: Dorset County Council Unique Response Ref: CSIO-06661

Response: Design of all new residential developments should keep speeds lower naturally

General comments:

Issue: TR7 Contact ID: XED0017 Surname: GRIFFITHS Unique Response Ref: CSIO-15798
Option: F Organisation: Christchurch Borough Council

Response:

General comments: Where there is no room for cycleways then shared with pedestrians is acceptable

Issue: TR7 Contact ID: XED1866 Surname: NEWMAN Unique Response Ref: CSIO-33848
Option: F Organisation:

Response:

General comments: Avoid improvements beneficial to car driving. Straight wide and smooth roads encourage speed. Introduce many more pedestrian crossings with instant lights

Issue: TR7 Contact ID: XED0018 Surname: NOTTAGE Unique Response Ref: CSIO-12330
Option: F Organisation: Christchurch Borough Council

Response: see comments about shared space "home zones"

General comments:

Issue: TR7 Contact ID: XED2321 Surname: PRESTON Unique Response Ref: CSIO-06021

Response: No explanation of "home zones" was given in the accompanying text.

General comments:

Issue: TR7 Contact ID: XED2442 Surname: HELLIER Unique Response Ref: CSIO-18140
Option: GENERAL Organisation: Highways Agency

Response:

General comments: The Agency welcomes the proposed options to improve safety on the roads and will assist local highway authorities where possible by improving safety on the SRN. The Agency also recognises the benefit of home zones and improved pedestrian and cycling facilities in moving away from a culture where cars have dominated the road user hierarchy. To this end the Agency would expect to see implementation of the principles outlined in the OFT's Manual for Streets.

Issue:	TR8	Contact ID:	XED0237	Surname:	ASHWORTH	Unique Response Ref:	CSIO-18705
Option:	GENERAL	Organisation:	New Forest District Council				
Response:							
General comments:	The development proposed in Christchurch and East Dorset's Core Strategy is likely to have a significant impact on the road network in New Forest District, including on the A31, the A35 (including through Lyndhurst) and the B3347 Avon Valley route. It is important that the authorities in South East Dorset work in conjunction with authorities in the South West Hampshire and beyond to address cross boundary issues. Development proposals in Christchurch and East Dorset must not result in unacceptable conditions on the transport network in New Forest District.

General comments:	I would also like to stress the importance of providing Green Infrastructure (G1) as stated in Policy GI of the draft RSS. Local Authorities need to incorporate GI policies into their LDF.						

Issue:	TR8	Contact ID:	XED0156	Surname:	BODELL	Unique Response Ref:	CSIO-20545
Option:	GENERAL	Organisation:	Dorset County Council				
Response:	Yes						
General comments:							

Issue: TR8 Contact ID: XED2324 Surname: BROWN Unique Response Ref: CSIO-06273
Option: GENERAL Organisation: A&R Developments (represented by Sibbett Gregory)

Response:

General comments: The expectation in the current Local Plans and in this Options Paper is that more than half of the required employment land (70 hectares) is located at Bournemouth Airport, which is remote from residential areas and is difficult to access other than by car. Furthermore development is dependent upon a provision of significant infrastructure improvements including a new junction with the A338 for which there is no funding, The alternative is online improvements which are set out in the Response Paper, for which again there is no funding.

Whilst funding may be available in the long term, Woolsbridge can be a viable option in the short term. Whilst not within walking distance of housing, and not on a very regular frequency bus service, a Green Transport Plan, in association with new development which existing employers would be required to sign up as leases are renewed, could secure a reduction in the need to travel by private car. Such initiatives might include subsidising bus transport, introducing car sharing and encouraging cycling. The Core Strategy needs to be realistic and capable of delivery. Many of the options are aspirational, with no real prospect of being implemented because of a lack of funding, e.g. the West Moors and Three Legged Cross Bypass. Sites which can be delivered without the need for extensive highway infrastructure requirements should be preferred. Woolsbridge is such a site.

Response: No

General comments: Plan needs to be realistic, no point in keeping bypass plans if no likelihood of funding

Issue: TR8 Contact ID: XED1363 Surname: BURDEN Unique Response Ref: CSIO-18096
Option: GENERAL Organisation: Cranborne Chase & West Wiltshire Downs AONB

Response:

General comments: The transport theme, page 33, seems to be very urban focused. One of the issues that has come out of the AONB Management Plan consultation process is the very high level of personal car ownership within the AONB. This seems to flow from the difficulty of providing any realistic public transport across a very rural area. It seems that we are going to have to accept that people will need to have personal transport to get to the points where public transport is available. However, to provide a real incentive to use that public transport when they get there affordable parking needs to be made available. Such parking might be linked to public houses at crossroads or village hall car parks within villages. Nevertheless, the availability of parking and the affordability of it both seem to be crucial to encouraging people to use their personal transport for just the link from their home to the public transport node. If that incentive is not there then it seems that it is going to be a bit of a losing battle to try to get people to get out of their cars once they have got into them.

General comments:	In summary the Agency is concerned that the Issues and Options are going out for consultation without being informed by the findings of the Transport Study. Traffic modelling is essential to assess any site specific proposals and integral to the development of the Core Strategy. It is stipulated within the Core Strategy that the Transport Study will be available to inform the preferred options stage of the Core Strategy. Until the results of the study are comprehensively incorporated into the Core Strategy the Agency will raise concerns in respect of all major proposals made

General comments:	<p>5.7 We do not consider that the document identifies all the issues as too little emphasis is put on the economic benefits of the growth of the Airport and its role as an important economic driver in the conurbation.</p> <p>5.8 In order to support the development of not only the Airport but also the associated employment development adjacent, regular public transport services are essential. Currently a bus service to the airport runs every hour which will not encourage employees of or visitors to the business park and any future employment development to use public transport.</p> <p>5.9 By providing a population base at the Airport more regular public transport services could be provided and sustained in the long term providing sustainability benefits for both the airport and the development we propose at Parley Lane.</p>

Response:	No								
General comments:	<p>The theme should include an issue on changing behaviour and attitude on travel, particularly the preference given to car tripping and negative or lack of thinking on alternatives.</p> <p>Options could usefully cover fact finding on what personal decisions and beliefs are influencing people's use of car travel to access particular facilities, and influencing these decisions to reduce car tripping. An option funding targeted promotion and assistance with travel plans and their implementation, and travel changing events is important. These plans should be aimed not just at established targets such as large employers and schools but also new areas such as neighbourhoods. A further option is influencing key 'decision makers' who affect travel decisions by the public, such as the education, health service and public transport providers.</p> <p>The above are what might be called 'soft options' in that they do not directly involve physical change or measures on the ground (although this might be necessary to reinforce messages). But they offer potentially cost effective approaches to reducing car travel and congestion (and with added advantages of addressing air quality, the pleasantness of the highway environment and improving well being) compared with established approaches on increasing road capacity.</p>

General comments: P. 35 TR3 - where are the areas of greatest need? Again be more locationally specific and take a spatial approach to this theme. I.e. how is it influencing your spatial strategy?
Penultimate paragraph of left-hand column: correct. You therefore need to show what needs to be done where and how this is being taken into consideration in your spatial strategy.
2nd sentence right-hand column: we need to explore this further at our meeting on the 23 May, i.e. what stages of the traffic model can be completed by when and how much information this will provide you in order to underpin the decisions you need to make in your Core Strategy.
P. 36 you haven't said much about walking and cycling under the transport theme and should address this in further developing the Core Strategy. Again you will need to look at this spatially (are there any hot spots? opportunities?) and consider how this is influencing your spatial strategy? This is clearly also important in terms of health and well-being as well as for sustainability.
