# 1 Introduction

## 1.1 The Process of Consultation

**1.2** This document has been prepared in parallel with the Duty to Co-operate Paper, which provides further evidence of how we have worked with partners and neighbouring authorities to resolve cross boundary issues.

**1.3** The Christchurch and East Dorset Core Strategy (Local Plan), when adopted, will provide up to date strategic planning policy for the Christchurch and East Dorset plan area, and ensure that the visions and objectives for the area are delivered through the planning policies in the most sustainable way.

**1.4** The Core Strategy has been in preparation for a number of years. This has involved considerable community consultation, the collection of evidence and working with partners, including other Local Planning Authorities, service providers, Town and Parish Councils, community groups, the Local Community Partnerships, businesses, government organisations, developers and agents.

**1.5** The Regulations require that a Statement is produced outlining the community and stakeholder consultation undertaken during the preparation of a Development Plan Document. This report documents the consultation undertaken for each stage of the process. In addition to the Statement itself, appendices have been included which provide more detail on the various consultation events, meetings and public notices.

## 1.6 Public Consultation

**1.7** Consultation throughout the preparation of the Core Strategy has been undertaken in accordance with the Councils' adopted Statement of Community Involvement (2006). During the preparation of the Core Strategy changes have been made to the planning regulations and consultation has been undertaken in accordance with the regulations in force at each stage which include:

## 1.8 Issues and Options (2008) / Options for Consideration (2010):

- The Town and Country Planning (Local Development) (England) Regulations 2004
- The Town and Country Planning (Local Development) (England) (Amendment) Regulations 2008

## 1.9 Pre Submission 2012 / Schedule of Proposed Changes to the Pre Submission Core Strategy:

- The Town and Country Planning (local Planning) (England) Regulations 2012

**1.10** The adopted Statement of Community Involvement (2006) sets out the broad categories of consultation groups which is not exhaustive and has been regularly updated throughout the process of preparing the Core Strategy. The broad categories of consultation groups are as follows:

### 1.11 A LDF Key Stakeholder Group (Appendix 5)

### 1.12 B General Public (Appendix 5, Section 1)

**1.13 C Hard to Reach Groups (Appendix 5, Sections 1 and 13)**

**1.14 D Businesses (Appendix 5, Section 1)**

**1.15 E Developers / Landowners - (Appendix 5, Sections 1 and 12)**

**1.16 F Local Interest & Community Groups - (Appendix 5, Sections 3, 7, 9 & 11)**

**1.17** The SCI sets out that formal periods of consultation will be for a minimum of 6 weeks (with the exception of initial Issues and Options consultation (previously Regulation 25) which in most cases is conducted over a 4 week period).

## 2 Section 1 - Issues and Options Consultation

**(25th March – 6th May 2008)**

**2.1** In March 2008 Christchurch and East Dorset Councils conducted a formal period of public consultation on the joint draft Core Strategy.

**2.2** The Christchurch and East Dorset Core Strategy Issues and Options discussion paper addressed a range of planning issues which face Christchurch Borough and East Dorset District. The paper asked for views on a number of possible options which the Councils may implement in the future to address these issues. The formal six week consultation on the discussion paper was completed on 6 May 2008.

**2.3** The Issues and Options paper was prepared to trigger discussion about future planning across both district areas. The document was broken into themed sections, each of which set out a range of identified issues and proposed policy options.

**2.4** The consultation took place alongside the Affordable Housing Issues and Options Discussion Paper consultation. All options published in the discussion paper were tested against a range of 24 sustainability objectives to assess their potential environmental, social and economic impacts. The Councils produced an interim Sustainability Statement which provides an assessment of the Issues and Options papers for the Christchurch and East Dorset Core Strategy and Affordable Housing Development Plan Document. The statement forms an early stage of the overall Sustainability Appraisal process for the emerging Local Development Framework and should also be read in conjunction with the Sustainability Appraisal Scoping Report that has been produced to underpin the appraisal of the Local Development Framework.

### **2.5 How were consultees invited to comment?**

**2.6** A paper or electronic copy of the document was sent to the Statutory Consultees. All those registered on the LDF database received notification of the start of the consultation and how to read the document and find out more, including details of where to find the consultation on the website. Hard copies were available on request. Details of all consultees are in Appendix A.

**2.7** In addition, the document was made available at the Council Offices in Christchurch and Furzehill; the Town and Parish Council offices of Corfe Mullen, Ferndown, Verwood, West Moors and Wimborne Minster; at Steamer Point in Highcliffe and Christchurch Information Centre; and at all local libraries in Christchurch and East Dorset, and libraries in Ringwood and Fordingbridge.

**2.8** Consultees were invited to submit their comments by completing a Response Form, either electronically or by post, within the consultation period.

**2.9** In order to raise community awareness, leaflets tailored to the areas facing most change in East Dorset were sent to every household in those localities during the consultation, to invite them to get involved. The East Dorset News free magazine was sent to every household in the District, with information about the Core Strategy. General leaflets about the Core Strategy process were also prepared and also one covering the proposed employment land proposals. The General Core Strategy leaflet was distributed in Christchurch and East Dorset and covered the key issues from the Core Strategy consultation including

the Vision, climate change, settlement strategy, transport, town centres, economic growth, Bournemouth Airport, housing delivery and community facilities. In Christchurch a leaflet was produced relating to the area of search and criteria for developing policy for the North Christchurch Urban Extension. All leaflets were distributed around the Borough and made available at consultation events. The Christchurch Courier is a free magazine which is distributed to most households included a consultation pull-out which has good coverage across the Borough. Copies are provided in Appendix C with relevant press articles.

**2.16** The Issues and Options consultation enabled the Councils to identify with its communities what the issues, opportunities and challenges were for planning for employment growth and homes in each area.

**2.17** The following main points arose from the consultation:

**2.22** Following the 'Issues and Options' stage of consultation on the Core Strategy, the 'Options for Consideration' Core Strategy did not put forward a housing target in East Dorset, but the community were invited to respond regarding how much housing they considered should be built in green field locations identified in the plan in the district. **3.12** In order to raise community awareness, detailed leaflets and maps tailored to the areas facing most change were sent to every household in those localities in East Dorset during the consultation, to invite them to get involved. General leaflets about the Core Strategy process were also prepared and also one covering the proposed employment land proposals. The leaflets were hand delivered to many households directly affected by the proposals in East Dorset, and bundles of leaflets were taken to doctor's surgeries, vets, cafés, local shops and garden centres in order to engage with the community.

**3.13** In Christchurch, a detailed leaflet was produced concerning Core Strategy options for the North Christchurch Urban Extension. A further General Leaflet was produced for Christchurch setting out key Core Strategy proposals for the North Christchurch Urban Extension, Bournemouth Airport, the town centre, transport improvements and affordable housing. These leaflets were disseminated widely across the Borough and made available at consultation events.

**3.14** Full information is provided in Appendix D with relevant press articles, and details of the Focus Groups and Stakeholder meetings which took place during the consultation.

**3.15** In East Dorset, a series of press articles were issued each week in the Stour and Avon Magazine to raise the profile of the consultation about key issues affecting the community. These ran for 6 weeks from 27.08.10 in advance of the start of the consultation. Details are provided in Appendix D.

**3.16** East Dorset News and the Christchurch Courier carried articles and pull-outs for the community to complete. East Dorset News was delivered to every household and the Christchurch Courier was widely distributed across Christchurch Borough. A short DVD was created for East Dorset with interviews by stakeholders and local residents to share their

views on the Core Strategy proposals. This was played at the Exhibitions and at all the Focus Groups to help stimulate debate and raise interest. It was also available on YouTube and the Council's website <http://www.dorsetforyou.com/399697>

**3.17** In East Dorset, an electronic touchscreen standpoint was taken to exhibitions throughout the consultation period, with set questions for the visitors to answer about the Core Strategy. A standpoint was available in Planning Reception throughout the consultation, and for 12 days in the Hub at Verwood. There was a good response from this method of consultation, which gave enabled a quick response method for residents. We also utilised an online survey using a SNAP Web Survey. This recorded 254 comments from the community. The results from both were included in the responses to this consultation.

**3.18** The consultation methods also included a series of Focus Groups, where delegates were given a presentation about the 'Options for Consideration' consultation and invited to discuss key themes in round table groups. The following Focus Groups took place:

- Bournemouth Airport Advisory Group
- Christchurch and Highcliffe Town Centres

3.35 A total of 21,955 representations were received from 2,277 respondents. This included representations on the settlement leaflets, official response forms, pull-outs, letters, the touchscreen standpoint, online SNAP survey and emails. This was an unprecedented level of interest in a Local Plan in Christchurch and East Dorset.

3.36 However, in real terms, the numbers involved show a very small proportion of the community responding to the consultation.

### 3.37 The following main points arose from the consultation:

- Local opposition to new development for housing and employment at some Green Belt locations;
- The scale of development at some localities;
- Problems of traffic congestion and improvements needed to the local transport network; particularly congestion on the A31 and in Christchurch town centre;
- Concerns about the growth of Bournemouth Airport and employment land provision;
- The need for more affordable housing for local families;
- Concerns about climate change and flood risk affecting the settlements;
- The need for a realistic housing target;
- The need to protect our historic and natural environments;
- Developer and Transport contributions;
- Mixed community reaction to a new upper school in Verwood;
- Employment sites hierarchy and growth.
- Questioning the need for more housing in this area;
- Other Green Belt sites should be considered for housing development;
- Do not spoil the towns and existing plots of homes by infill;
- Concern about relocation of the allotments in Christchurch, Wimborne and Corfe Mullen;

- Christchurch Town Centre needs more support to increase footfall and improve it's attraction as a tourist destination;
- Concerns about moving Wimborne Rugby Club;
- Support for the expansion of Victoria Hospital in Wimborne;
- Mixed views to the redevelopment of the Allendale area of Wimborne or the relocation of the market;
- Support for the Green Infrastructure policies.

### 3.38 How were these representations taken into account?

**3.39** These comments provided an important and useful gauge of the views of the community and key stakeholders on policy options for the future planning of the area. The comments were carefully analysed to inform the future direction of policy. It was apparent that some responses were from local residents who objected to development near to their homes. It has not always possible therefore to satisfy the views of all respondents and change policy accordingly. Comments which related to issues of deliverability and achievability were addressed, and policies altered or removed prior to the document being prepared for the statutory Pre-Submission stage of consultation.

**3.40** Throughout the following months until the next round of consultation, there was continuous engagement with representatives of the land owners, developers, key stakeholders, Councillors and Parish Councils. Meetings took place as requested by the groups or individuals concerned.

**3.41** A Press Briefing took place on 16th January 2012 with the Leaders of both Councils and representatives of the local press regarding the forthcoming publication of the draft Pre-Submission document, advising of the forthcoming committees at each Council, where representatives would be given an opportunity to speak about the Core Strategy proposals. All consultees on the database were advised of this. In January and February 2012, the Christchurch Courier and East Dorset News carried articles advising of the Pre-Submission Consultation later that spring, how to engage, and details of the Council Committee meetings where the document would be discussed. Details of these are provided in Appendix D.
