Theme: 10 Theme 10 Bournemouth International Airport

Issue: 02: Which transport improvements should the Core Strategy consider as part of the transport requirements for the Airport?

A A new alignment of the A338 link road to minimise impact on sites of environmental importance and on the operational airport.

B New alignment of B3073 between Chapel Gate and Blackwater Junction.

C Improvements to public transport serving the northern business parks.

Theme: 10 Theme 10 Bournemouth International Airport

Issue: 05: What policy approaches should be pursued at the airport to effectively promote sustainable economic growth?

A A zonal approach should be adopted in the business park for the promotion of different types of employment. This approach could identify zones within the site for specific uses / clusters of related activity e.g. zones for growth

B Provision should be made for aviation related uses

C There should be general flexibility in the location of different types of employment development to respond to market demand.
