

Neighbourhood Plan for the Blandford Area

A Neighbourhood Plan sets out a vision for an area and contains local planning policies for the use and development of land.

If it is prepared correctly, and conforms to the national planning policy (the NPPF) and the District Council's Local Plan, it can become part of the overall development plan and will be used to determine planning applications.

Blandford Forum Town Council, Blandford St Mary Parish Council, Bryanston Parish Council and the DT11 Community Partnership are working together to produce a Neighbourhood Plan and will need your input.

If you would like to get involved, please let your local council or the DT11 Community Partnership know!
