

Matter 1/ 656647. (Participant Mrs.S.Parkin) Re: CORFE MULLEN. ( Population 13,000 )

- 1/ - No – the accepted long standing areas of development, do not appear to have been considered.
- 2/b - In Corfe Mullen, the delivery & time scales, are based on the supposition (i.e. that Lockyer's school should move ). This is very unlikely with financial restraints, and no discernable need, now that nearly £1,000.000, has been spent in the last two years on this school.  
Moving the Allotments will not be easy, as finding good land as a replacement like for like, based on PH analysis, will be very difficult.
- 2/c- The necessary land survey's and excavation trials for Haywards Lane & Pardy's Hill areas have been carried out by the respective present Owners. Based on Regional Strategy area requirements.
- 3/- The need for affordable and other homes is dire – EDDC is known to be one of the worst councils for addressing this problem. When this was highlighted nationally, EDDC were made to try and address the very large shortfall, but so far too late and too far behind to help this village ( urban sprawl, due to Poole's inadequacy in providing housing that matched their Industrial area plan.)
- 6/- No current provision in Corfe Mullen ( Pop: 13,000 ) for Industry, we are reliant on adjoining Districts, to provide employment, not very sustainable and a sad reflection on Planner's ability, to consider the people of this village.
- 8/ - No – SCHAA provision allowed alongside the proposed development in Corfe Mullen.
- 9/ - There will always be a need for land for industry, where associated with a high density population, there is not enough in this area.
