

Bournemouth, Dorset and Poole – Mineral Sites Plan

Site Information	
Site Location	Crack Lane, 0.5km north of Langton Matravers
Grid Reference	SY 999 794
Administrative Area	Purbeck DC
Parish	Langton Matravers
Site Nominee(s)	WJ Haysom & Son Ltd
Proposed development	Purbeck Marble extraction
Site Area	0.5ha (not all to be part of any single operation)
Estimated annual output (tpa)	Approximately 900 t could be taken in a summer campaign, from an area of approximately 150 m ²
Estimated reserve	32,000 tonnes (potentially only half is practicably recoverable)
Expected life of operation	Not known; years of dormancy broken by summer campaigns, depending on demand
Existing land use	Pasture
Proposed Restoration	Pasture
Access	From Crack Lane, close to junction with A351
Estimated Traffic Movements	One summer campaign would create approximately 60 lorry movements to take the extracted material to Lander's Quarry

PK20 Crack Lane, Worth Matravers
