Planning Ref: Broadwindsor Neighbourhood Plan

Dear Oliver

Thank you for your consultation on the above.

Having looked at the evidence submitted, Natural England would concur with your view that there is no need for an HRA of the Broadwindsor NP, as currently proposed. Clearly if any changes occur to the plan that would materially change the possibility of impacts on the Natura 2000 Network, Natural England would need to be re-consulted.

We would be happy to comment further should the need arise. In the meantime, if you have any queries please get in touch with us.

For any queries regarding the advice in this letter only, please contact Matt Low on 07771 838550. For any new consultations and to provide further information relating to this consultation please send your correspondence to consultations@naturalengland.org.uk.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced and managed for the benefit of future generations, thereby contributing to sustainable development.

Yours sincerely

Matt Low
