Based on the recommendations following the Referendum of Village residents and the various stages of consultation on the Draft NDP the proposed Sites meet the overall parameters required for housing developments in Milton Abbas. The Sites are within or immediately adjacent to existing residential housing and the services infrastructure required is conveniently placed for the development.

The NDP as submitted has my support.

However, in my opinion Site 7 in The Plan is better suited and would be a single Site to meet all the housing requirements. This Site would affect the least number of residents especially during the construction phase with movement of heavy plant and equipment, has the advantage of direct vehicle access from/to the main through road thus avoiding increase in traffic movements on the already heavily congested side roads to the proposed Sites. This Site would be screened from the road by existing hedgerows. Views across the countryside would be compromised if the NDP proposed Sites are developed.
